Evidence-Based Treatment Guidelines for Treating Injured Workers, An Issue of Physical Medicine and Rehabilitation Clinics of North America, 1e (The Clinics: Internal Medicine) Andrew S. Friedman MD

Medical treatment guidelines are written from a clinical perspective, to guide clinical care. The review criteria that will be included in this issue of Physical Medicine & Rehabilitation Clinics are evidence based and are developed by practicing physicians and advisors who work in physical medicine and rehabilitation. Health care providers are expected to be familiar with the guidelines and follow the recommendations. Good medical judgment is important in deciding how to use and interpret this information.
