AWS Lambda in Action: Event-driven serverless applications Danilo Poccia

AWS Lambda helps to quickly and easily build and run applications on the AWS cloud that automatically run code in response to events.

AWS Lambda in Action is an example-driven tutorial that teaches readers how to build applications that use an event-driven approach on the back end. By the end of this book, readers will be ready to use AWS Lambda to create applications that take advantage of the high availability, security, performance, and scalability of AWS.

Purchase of the print book includes a free eBook in PDF, Kindle, and ePub formats from Manning Publications.
