Fractal image encoding is one of the famous lossy encoding techniques ascertain high compression ratio, higher PSNR and good quality of encoded image. It is the approach that uses self similarity property in natural image. The main drawback of fractal image encoding is time consumption in search of appropriate domain for each range of image blocks. There have been various researches carried out to overcome the limitation of fractal encoding and to speed up the encoder. The neighborhood search strategy used in spatial domain reduces the encoding time from linear time to logarithmic time. The proposed algorithm used k-nearest neighbor search to find the similar edge shaped range and domain blocks to be mapped on the basis of DCT lowest coefficients in horizontal and vertical directions and then using similarity measure; the virtual codebook was prepared to encode the image and then decoded the image using averaging of pixels of selected domains. The proposed approach explained in this book is compared with the existing method and this work gave high PSNR value, high compression ratio and reduced MSE computations with little decay in image quality which is acceptable.

### **From reader reviews:**

#### **Frances Lawler:**

The book Fractal Image Encoding Using Fringe Based Property can give more knowledge and information about everything you want. So just why must we leave a good thing like a book Fractal Image Encoding Using Fringe Based Property? Wide variety you have a different opinion about reserve. But one aim which book can give many details for us. It is absolutely suitable. Right now, try to closer together with your book. Knowledge or info that you take for that, you may give for each other; you may share all of these. Book Fractal Image Encoding Using Fringe Based Property has simple shape but you know: it has great and big function for you. You can appearance the enormous world by start and read a e-book. So it is very wonderful.

#### **Mary Barnett:**

The book Fractal Image Encoding Using Fringe Based Property has a lot of knowledge on it. So when you make sure to read this book you can get a lot of benefit. The book was authored by the very famous author. This articles author makes some research before write this book. This specific book very easy to read you can get the point easily after perusing this book.

#### **Jason Serrano:**

In this time globalization it is important to someone to find information. The information will make professionals understand the condition of the world. The condition of the world makes the information much easier to share. You can find a lot of sources to get information example: internet, classifieds, book, and soon. You can observe that now, a lot of publisher this print many kinds of book. The actual book that recommended for you is Fractal Image Encoding Using Fringe Based Property this book consist a lot of the information in the condition of this world now. That book was represented how does the world has grown up. The dialect styles that writer value to explain it is easy to understand. The writer made some research when he makes this book. Here is why this book appropriate all of you.

#### **Sandra Brown:**

As we know that book is important thing to add our information for everything. By a e-book we can know everything we wish. A book is a range of written, printed, illustrated or perhaps blank sheet. Every year has been exactly added. This publication Fractal Image Encoding Using Fringe Based Property was filled concerning science. Spend your extra time to add your knowledge about your science competence. Some people has various feel when they reading some sort of book. If you know how big benefit from a book, you can experience enjoy to read a guide. In the modern era like right now, many ways to get book which you wanted.
