Basic Modern Algebra with Applications

Mahima Ranjan Adhikari, Avishek Adhikari

Basic Modern Algebra with Applications Mahima Ranjan Adhikari, Avishek Adhikari

The book is primarily intended as a textbook on modern algebra for undergraduate mathematics students. It is also useful for those who are interested in supplementary reading at a higher level. The text is designed in such a way that it encourages independent thinking and motivates students towards further study. The book covers all major topics in group, ring, vector space and module theory that are usually contained in a standard modern algebra text.

In addition, it studies semigroup, group action, Hopf's group, topological groups and Lie groups with their actions, applications of ring theory to algebraic geometry, and defines Zariski topology, as well as applications of module theory to structure theory of rings and homological algebra. Algebraic aspects of classical number theory and algebraic number theory are also discussed with an eye to developing modern cryptography. Topics on applications to algebraic topology, category theory, algebraic geometry, algebraic number theory, cryptography and theoretical computer science interlink the subject with different areas. Each chapter discusses individual topics, starting from the basics, with the help of illustrative examples. This comprehensive text with a broad variety of concepts, applications, examples, exercises and historical notes represents a valuable and unique resource.

From reader reviews:

Betty Terry:

As people who live in often the modest era should be revise about what going on or details even knowledge to make these keep up with the era that is always change and make progress. Some of you maybe may update themselves by studying books. It is a good choice for yourself but the problems coming to you actually is you don't know what kind you should start with. This Basic Modern Algebra with Applications is our recommendation to make you keep up with the world. Why, because book serves what you want and need in this era.

Mary Andrade:

This Basic Modern Algebra with Applications is great e-book for you because the content and that is full of information for you who have always deal with world and also have to make decision every minute. This book reveal it info accurately using great coordinate word or we can claim no rambling sentences in it. So if you are read this hurriedly you can have whole information in it. Doesn't mean it only will give you straight forward sentences but difficult core information with beautiful delivering sentences. Having Basic Modern Algebra with Applications in your hand like keeping the world in your arm, information in it is not ridiculous one particular. We can say that no book that offer you world throughout ten or fifteen minute right but this e-book already do that. So , this is certainly good reading book. Hey Mr. and Mrs. active do you still doubt which?

Martha Silva:

As we know that book is essential thing to add our information for everything. By a guide we can know everything we want. A book is a pair of written, printed, illustrated or even blank sheet. Every year has been exactly added. This e-book Basic Modern Algebra with Applications was filled with regards to science. Spend your spare time to add your knowledge about your scientific research competence. Some people has different feel when they reading the book. If you know how big good thing about a book, you can feel enjoy to read a reserve. In the modern era like at this point, many ways to get book you wanted.

Alberta Keyes:

A lot of book has printed but it is unique. You can get it by web on social media. You can choose the best book for you, science, amusing, novel, or whatever simply by searching from it. It is identified as of book Basic Modern Algebra with Applications. Contain your knowledge by it. Without leaving behind the printed book, it might add your knowledge and make anyone happier to read. It is most significant that, you must aware about guide. It can bring you from one location to other place.
