## **Surface Crystallography by LEED: Theory, Computation and Structural Results (Springer Series in Chemical Physics)** M.A. van Hove, S.Y. Tong

Surface science has experienced an impressive growth in the last two decades. The attention has focussed mainly on single-crystal surfaces with, on the atomic scale, relatively simple and well-defined structures (for example, clean surfaces and such surfaces with limited amounts of additional foreign atoms and molecules). One of the most fundamental types of information needed about solid surfaces concerns the relative atomic positions. The geometrical arrangement of surface atoms influences most physical and chemical properties of surfaces, the list of which is long and includes a number of important technological applications: electronic surface states, contact potentials, work functions, oxidation, heterogeneous catalysis, friction, adhesion, crystal growth etc. Surface crystallography - the determination of relative atomic positions at surfaces - has found a successful tool in Low-Energy Electron Diffraction (LEED): this technique has now determined the atomic positions for nearly a hundred surfaces, whether in the clean state or with additional foreign atoms or molecules. The main aim of this book is to publish a set of computer programs that has been specifically designed for and extensively used in surface crystallography by LEED. These programs are based on the dynamical (i.e.

### **From reader reviews:**

#### **Joshua Arwood:**

Book is to be different for each grade. Book for children until adult are different content. As it is known to us that book is very important for people. The book Surface Crystallography by LEED: Theory, Computation and Structural Results (Springer Series in Chemical Physics) had been making you to know about other understanding and of course you can take more information. It is very advantages for you. The publication Surface Crystallography by LEED: Theory, Computation and Structural Results (Springer Series in Chemical Physics) is not only giving you far more new information but also being your friend when you really feel bored. You can spend your spend time to read your guide. Try to make relationship using the book Surface Crystallography by LEED: Theory, Computation and Structural Results (Springer Series in Chemical Physics). You never really feel lose out for everything when you read some books.

#### **Lori Thomas:**

Hey guys, do you desires to finds a new book to read? May be the book with the headline Surface Crystallography by LEED: Theory, Computation and Structural Results (Springer Series in Chemical Physics) suitable to you? The particular book was written by renowned writer in this era. The actual book untitled Surface Crystallography by LEED: Theory, Computation and Structural Results (Springer Series in Chemical Physics) is the main one of several books which everyone read now. This book was inspired a number of people in the world. When you read this e-book you will enter the new shape that you ever know just before. The author explained their plan in the simple way, therefore all of people can easily to be aware of the core of this publication. This book will give you a lots of information about this world now. So you can see the represented of the world within this book.

#### **Bertha Chang:**

Surface Crystallography by LEED: Theory, Computation and Structural Results (Springer Series in Chemical Physics) can be one of your beginner books that are good idea. Most of us recommend that straight away because this e-book has good vocabulary that may increase your knowledge in vocabulary, easy to understand, bit entertaining however delivering the information. The author giving his/her effort to get every word into joy arrangement in writing Surface Crystallography by LEED: Theory, Computation and Structural Results (Springer Series in Chemical Physics) although doesn't forget the main position, giving the reader the hottest and also based confirm resource information that maybe you can be one among it. This great information could drawn you into fresh stage of crucial pondering.

#### **Robert Schneck:**

The book untitled Surface Crystallography by LEED: Theory, Computation and Structural Results (Springer Series in Chemical Physics) contain a lot of information on the idea. The writer explains the woman idea with easy technique. The language is very simple to implement all the people, so do definitely not worry, you

can easy to read the item. The book was published by famous author. The author gives you in the new age of literary works. You can actually read this book because you can continue reading your smart phone, or program, so you can read the book in anywhere and anytime. In a situation you wish to purchase the e-book, you can wide open their official web-site as well as order it. Have a nice examine.
