Handbook of the Geometry of Banach Spaces, Volume 2

Handbook of the Geometry of Banach Spaces, Volume 2

Presenting an overview of most aspects of modern Banach space theory and its applications, this handbook offers up-to-date surveys by a range of expert authors. The surveys discuss the relation of the subject with such areas as harmonic analysis, complex analysis, classical convexity, probability theory, operator theory, combinatorics, logic, geometric measure theory and partial differential equations. contains all the background needed for reading any other chapter. Each of the 21 articles after his is devoted to one specific direction of Banach space theory or its applications. Each article contains a motivated introduction as well as an exposition of the main results, methods and open problems in its specific direction. Many articles contain new proofs of known results as well as expositions of proofs which are hard to locate in the literature or are only outlined in the original research papers. The handbook should be useful to researchers in Banach theory, as well as graduate students and mathematicians who want to get an idea of the various developments in Banach space theory.

From reader reviews:

Alfred Cox:

Why? Because this Handbook of the Geometry of Banach Spaces, Volume 2 is an unordinary book that the inside of the reserve waiting for you to snap that but latter it will jolt you with the secret this inside. Reading this book next to it was fantastic author who write the book in such remarkable way makes the content inside of easier to understand, entertaining way but still convey the meaning totally. So , it is good for you because of not hesitating having this any longer or you going to regret it. This amazing book will give you a lot of gains than the other book possess such as help improving your ability and your critical thinking method. So , still want to hold off having that book? If I were being you I will go to the guide store hurriedly.

Fred Swett:

Are you kind of stressful person, only have 10 or maybe 15 minute in your time to upgrading your mind skill or thinking skill perhaps analytical thinking? Then you are having problem with the book when compared with can satisfy your small amount of time to read it because all this time you only find reserve that need more time to be examine. Handbook of the Geometry of Banach Spaces, Volume 2 can be your answer as it can be read by you who have those short free time problems.

Kim Marshall:

Beside this particular Handbook of the Geometry of Banach Spaces, Volume 2 in your phone, it can give you a way to get nearer to the new knowledge or info. The information and the knowledge you may got here is fresh from your oven so don't always be worry if you feel like an old people live in narrow village. It is good thing to have Handbook of the Geometry of Banach Spaces, Volume 2 because this book offers to your account readable information. Do you at times have book but you do not get what it's all about. Oh come on, that will not happen if you have this with your hand. The Enjoyable option here cannot be questionable, such as treasuring beautiful island. Techniques you still want to miss this? Find this book in addition to read it from now!

Patrick Stokes:

With this era which is the greater man or who has ability in doing something more are more important than other. Do you want to become one of it? It is just simple approach to have that. What you are related is just spending your time very little but quite enough to get a look at some books. One of many books in the top list in your reading list is definitely Handbook of the Geometry of Banach Spaces, Volume 2. This book that is certainly qualified as The Hungry Hillside can get you closer in becoming precious person. By looking upward and review this reserve you can get many advantages.
