Fundamentals of Building Construction: Materials and Methods with Interactive Resource Center Access Card, 6th Edition Binder Ready Version Edward Allen, Joseph Iano

This text is an unbound, binder-ready edition. Loose leaf, three-hole-punched –carry only what is needed for class.

Note from the publisher:

Now in its sixth edition, this bestselling reference focuses on the basic materials and methods used in building construction. Emphasizing common construction systems such as light wood frame, masonry bearing wall, steel frame, and reinforced concrete construction, the new edition includes new information on building materials properties; the latest on "pre-engineered" building components and sustainability issues; and reflects the latest building codes and standards. It also features an expanded series of case studies along with more axonometric detail drawings and revised photographs for a thoroughly illustrated approach.
