The Motor Car: A Practical Manual for the Use of Students and Motor Car Owners; With Notes on the Internal Combustion Engine and Its Fuel (Classic Reprint) Robert W a Brewer

Excerpt from The Motor Car: A Practical Manual for the Use of Students and Motor Car Owners; With Notes on the Internal Combustion Engine and Its Fuel

The information given in this book was originally delivered by the Author in the form of lectures at the Crystal Palace School of Practical Engineering, the Royal United Service Institution, and the Royal Automobile Club. There appeared to be some demand for a practical work on these lines, so his notes have been enlarged for publication.

The Author decided to commence at the beginning of the subject, and to explain the evolution which had to take place in internal combustion work before the modern motor car could become a commercial possibility. The fundamental principles governing the action of the engine are discussed under the heading of Gas Engines the action of these larger and somewhat cruder machines is more easy to grasp.

About the Publisher

Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com

This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
