Nursing Health Assessment: A Best Practice Approach Sharon Jensen

This updated Second Edition of *Nursing Health Assessment: A Best Practice Approach* emphasizes health promotion, risk factor reduction, evidence-based thinking, and diagnostic reasoning. The author presents strategies for adapting questions and techniques when communication is challenging, the patient's responses are unexpected, or the patient's condition changes over time. Unique features assist with application, analysis, and critical thinking skill development to better preparing students for practice.

Starting with Unit 2, all chapters follow a consistent organization to facilitate understanding: Threaded Case Study, Structure and Function Overview, Acute Assessment, Subjective Data Collection, Objective Data Collection, Evidence-based Critical Thinking, and Tables of Abnormal Findings. Each chapter requires students to use diagnostic reasoning skills to analyze data, document and communicate their findings, and plan care. Normal and abnormal findings are presented in side-by-side columns and thorough and comprehensive examinations are included for each specific topic.

Additional features, a robust ancillary program, and book-related media build on the in-text cases to reinforce correct elements of subjective and objective data collection and variations necessary for different problems, age groups, and cultures.

From reader reviews:

Ashley Staley:

Do you certainly one of people who can't read satisfying if the sentence chained within the straightway, hold on guys that aren't like that. This Nursing Health Assessment: A Best Practice Approach book is readable by you who hate the straight word style. You will find the info here are arrange for enjoyable studying experience without leaving perhaps decrease the knowledge that want to supply to you. The writer involving Nursing Health Assessment: A Best Practice Approach content conveys the thought easily to understand by lots of people. The printed and e-book are not different in the content material but it just different such as it. So , do you even now thinking Nursing Health Assessment: A Best Practice Approach is not loveable to be your top listing reading book?

Kevin Serna:

People live in this new moment of lifestyle always make an effort to and must have the time or they will get lot of stress from both lifestyle and work. So , when we ask do people have time, we will say absolutely indeed. People is human not really a robot. Then we consult again, what kind of activity are you experiencing when the spare time coming to anyone of course your answer will unlimited right. Then do you try this one, reading ebooks. It can be your alternative with spending your spare time, the book you have read is Nursing Health Assessment: A Best Practice Approach.

Alberta Townsend:

Many people spending their time frame by playing outside with friends, fun activity using family or just watching TV the entire day. You can have new activity to pay your whole day by reading a book. Ugh, think reading a book really can hard because you have to accept the book everywhere? It all right you can have the e-book, bringing everywhere you want in your Smart phone. Like Nursing Health Assessment: A Best Practice Approach which is finding the e-book version. So , try out this book? Let's see.

Tim Gonzalez:

As a college student exactly feel bored to reading. If their teacher asked them to go to the library in order to make summary for some e-book, they are complained. Just little students that has reading's heart or real their pastime. They just do what the trainer want, like asked to the library. They go to at this time there but nothing reading really. Any students feel that examining is not important, boring and also can't see colorful photos on there. Yeah, it is to become complicated. Book is very important to suit your needs. As we know that on this era, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore this Nursing Health Assessment: A Best Practice Approach can make you experience more interested to read.
