Why do we love to look at flowers and to sniff them, even though we've already seen and sniffed so many flowers? The pussy pictures shown here are much more than a guided tour through a garden of exotic blossoms. They depict the object to which our ancestors devoted cultic veneration throughout the millennia of prehistory: the vulva. These images touch us in a way that's not only aesthetic and sexual, but also archaic. the artist and photographer Gordon Denman shows us the vulvas of exciting and hot-blooded women, including some dark-skinned models with velvety brown skin, as well as beauties of Asian origin. an homage to the vulva, it's colors and it's wonderful shapes! Texts in English, German, French.
