Crossing Boundaries with Children's Books

This annotated bibliography, organized geographically by world region and country, describing nearly 700 books representing 73 countries, is a valuable resource for librarians, teachers, and anyone else seeking to promote international understanding through children's literature. It is the third volume sponsored by the United States Board on Books for Young People. The first, Carl M. Tomlinson's *Children's Books from Other Countries* (1998) is a compendium of international children's literature with annotations of both in and out of print books published between 1950 and 1996. Susan Stan's *The World Through Children's Books* (2002) was the second and it included books published between the years 1997 and 2000. *Crossing Boundaries* includes international children's books published between 2000 and 2004, as well as selected American books set in countries other than the United States. Editor Doris Gebel has compiled an important tool for providing stories that will help children understand our differences while simultaneously demonstrating our common humanity.
