Land, Law, and Lordship in Anglo-Norman England (Oxford Historical Monographs)

John Hudson

Land, Law, and Lordship in Anglo-Norman England (Oxford Historical Monographs) John Hudson
This is an important new interpretation of the development of land law in England during the century after the Norman Conquest. Norman society was based upon land and lordship, and the relative power of lord and vassal was crucial to the control of land. John Hudson exploits a wealth of surviving charter and chronicle evidence and examines the uses to which lords and vassals put their lands, the relationships between them, and the constraints upon them, in an approach which integrates social, political, administrative, and intellectual history.
