Woman's Sigh, Wolf's Song Kathryn Madison

Alexandra Verazzano flees to the Canadian high country, running from a brutal divorce and the uncertainty it has wrought. Her personal struggle resonates, becomes universal, then crosses that line between woman and beast to mirror the battle of Survivor, unique timber wolf, and his environment.

Despite the fact that reintroducing wolves to Yellowstone has re-balanced the ecosystem in just ten years, Wyoming, Idaho and Montana has legislation that will once again endanger the wolves' habitat and survival. Due to the paranoia and misinformation circulated about wolves, Woman's Sigh, Wolf's Song has particular contemporary resonance. Additionally, this story resonates with universal themes of personal struggle, survival and courage.
