Foundations for Social Change: Critical Perspectives on Philanthropy and Popular Movements

This multi-disciplinary collection blends broad overviews and case studies as well as different theoretical perspectives in a critique of the relationship between United States philanthropic foundations and movements for social change. Scholars and practitioners examine how these foundations support and/or thwart popular social movements and address how philanthropic institutions can be more accountable and democratic in a sophisticated, provocative, and accessible manner. Foundations for Social Change brings together the leading voices on philanthropy and social movements into a single collection and its interdisciplinary approach will appeal to scholars, students, foundation officials, non-profit advocates, and social movement activists.
