Selected Expository Works of Shing-Tung Yau with Commentary, Volume II (Vol. 29 of the Advanced Lectures in Mathematics series)

Shing-Tung Yau (Harvard University)

Selected Expository Works of Shing-Tung Yau with Commentary, Volume II (Vol. 29 of the Advanced Lectures in Mathematics series) Shing-Tung Yau (Harvard University)

Comprising volumes 28 and 29 of the ALM series, this outstanding collection presents all the survey papers of Shing-Tung Yau published to date (through 2013), each with Yau's own commentary. Among these are several papers not otherwise easily accessible. Also presented are several commentaries on Yau's work written by outstanding scholars from around the world especially for publication here.

Shing-Tung Yau's work is mainly in differential geometry, and he is one of the originators of the broad subject of geometric analysis - in which he remains one of the most active participants. His contributions have had an influence on both physics and mathematics, and he has long been active at the interface between geometry and theoretical physics. His proof of the positive energy theorem in general relativity demonstrated - sixty years after its discovery - that Einstein's theory is consistent and stable. His proof of the Calabi conjecture allowed physicists - using Calabi-Yau compactification - to show that string theory is a viable candidate for a unified theory of nature. Calabi-Yau manifolds are part of the standard toolkit of string theorists today. He was awarded the Fields Medal in 1982 and the Wolf Prize in 2010, and has received many other honors.

The *Selected Expository Works of Shing-Tung Yau with Commentary* provides the reader with systematic commentary on all aspects of mathematics by a contemporary master. The reader can thereby see the world of mathematics through his particular perspective, and gain understanding of the motivation and evolution of mathematical ideas.

This is the second of two volumes constituting the *Selected Expository Works of Shing-Tung Yau with Commentary*.

From reader reviews:

Phyllis Ramirez:

Why don't make it to be your habit? Right now, try to prepare your time to do the important action, like looking for your favorite publication and reading a guide. Beside you can solve your short lived problem; you can add your knowledge by the guide entitled Selected Expository Works of Shing-Tung Yau with Commentary, Volume II (Vol. 29 of the Advanced Lectures in Mathematics series). Try to face the book Selected Expository Works of Shing-Tung Yau with Commentary, Volume II (Vol. 29 of the Advanced Lectures in Mathematics series) as your pal. It means that it can be your friend when you feel alone and beside regarding course make you smarter than previously. Yeah, it is very fortunated for you. The book makes you much more confidence because you can know every little thing by the book. So , let me make new experience and knowledge with this book.

Daniel Colon:

The book Selected Expository Works of Shing-Tung Yau with Commentary, Volume II (Vol. 29 of the Advanced Lectures in Mathematics series) gives you the sense of being enjoy for your spare time. You need to use to make your capable much more increase. Book can to become your best friend when you getting strain or having big problem along with your subject. If you can make studying a book Selected Expository Works of Shing-Tung Yau with Commentary, Volume II (Vol. 29 of the Advanced Lectures in Mathematics series) to be your habit, you can get a lot more advantages, like add your own capable, increase your knowledge about many or all subjects. You may know everything if you like available and read a book Selected Expository Works of Shing-Tung Yau with Commentary, Volume II (Vol. 29 of the Advanced Lectures in Mathematics series). Kinds of book are several. It means that, science e-book or encyclopedia or others. So , how do you think about this publication?

Patricia Baker:

People live in this new day of lifestyle always try and and must have the spare time or they will get large amount of stress from both everyday life and work. So , if we ask do people have extra time, we will say absolutely without a doubt. People is human not really a robot. Then we ask again, what kind of activity are there when the spare time coming to you of course your answer will probably unlimited right. Then do you ever try this one, reading textbooks. It can be your alternative with spending your spare time, the book you have read is actually Selected Expository Works of Shing-Tung Yau with Commentary, Volume II (Vol. 29 of the Advanced Lectures in Mathematics series).

Hazel Mercado:

Beside this particular Selected Expository Works of Shing-Tung Yau with Commentary, Volume II (Vol. 29 of the Advanced Lectures in Mathematics series) in your phone, it might give you a way to get closer to the

new knowledge or information. The information and the knowledge you may get here is fresh from oven so don't be worry if you feel like an aged people live in narrow small town. It is good thing to have Selected Expository Works of Shing-Tung Yau with Commentary, Volume II (Vol. 29 of the Advanced Lectures in Mathematics series) because this book offers for you readable information. Do you oftentimes have book but you don't get what it's facts concerning. Oh come on, that wil happen if you have this in your hand. The Enjoyable set up here cannot be questionable, similar to treasuring beautiful island. Use you still want to miss the idea? Find this book and read it from at this point!
