Flu is a serious disease. People die from flu each year, and most of them are over 65 years old. The patients we care for as HHAs are at risk of becoming sick if we spread flu. Immunization and infection control are important ways to keep our patients and ourselves healthy during flu season.

## LESSON OBJECTIVES

After completion of this program, the home health aide will be able to:

- Describe why HHAs should get an influenza (flu) vaccination
- List three ways to protect yourself and your patients from the spread of flu
- Explain why coming to work when sick is not recommended

## Contents of this lesson:

- A clearly written fact sheet
- A 10-question post-test to measure understanding of the subject matter
- An answer sheet with a place for the instructor's comments and signature
- An illustrative, homecare-specific case study
- Suggested supplemental learning activities
- An attendance log and certificate of completion
