New Astronomer Carole Stott

The essential guide that shows you how to get the most from your observations.

For thousands of years, observers have gazed up at the night sky and wondered at the celestial bodies that occupy the vastness of space. If you have ever wanted to learn more about such phenomena, or just how to locate the major constellations and the planets, this practical and accessible guide will provide all the information you need. Covering comets, aurorae, asteroids, and nebulae as well as the moon, stars, and planets, *New Astronomer* is fully illustrated with drawings and photographs. Detailed sky charts help you to navigate around the heavens and locate the major constellations, stellar objects, and the planets. For each of the planets, there is a specially prepared map to help you pinpoint the exact location of each one up to the year 2010. A planisphere is included that shows the entire sky above your head for any time of night, and for any time of the year. *New Astronomer* offers comprehensively detailed yet straightforward advice on choosing and using the very latest equipment, including binoculars, telescopes, and accessories. It also shows you how to take photographs of celestial objects using an ordinary camera linked to your astronomical equipment. For the real enthusiast, this book features state-of-the-art technology, such as computer-linked digital imaging. Whether you are already an experienced astronomer, or just starting out, this essential guide contains all you need to know for successful skywatching.

From reader reviews:

Corine Ramirez:

In other case, little men and women like to read book New Astronomer. You can choose the best book if you appreciate reading a book. As long as we know about how is important a new book New Astronomer. You can add information and of course you can around the world by way of a book. Absolutely right, simply because from book you can understand everything! From your country right up until foreign or abroad you will end up known. About simple point until wonderful thing you can know that. In this era, we can open a book or maybe searching by internet system. It is called e-book. You need to use it when you feel fed up to go to the library. Let's read.

Sheila Carter:

The reserve untitled New Astronomer is the guide that recommended to you you just read. You can see the quality of the guide content that will be shown to a person. The language that article author use to explained their ideas are easily to understand. The article author was did a lot of analysis when write the book, therefore the information that they share to you is absolutely accurate. You also might get the e-book of New Astronomer from the publisher to make you much more enjoy free time.

Gary Sandler:

Can you one of the book lovers? If yes, do you ever feeling doubt if you find yourself in the book store? Make an effort to pick one book that you find out the inside because don't judge book by its handle may doesn't work here is difficult job because you are scared that the inside maybe not seeing that fantastic as in the outside appearance likes. Maybe you answer might be New Astronomer why because the fantastic cover that make you consider in regards to the content will not disappoint an individual. The inside or content will be fantastic as the outside or perhaps cover. Your reading sixth sense will directly make suggestions to pick up this book.

Eric Kyler:

As a university student exactly feel bored to help reading. If their teacher asked them to go to the library or make summary for some e-book, they are complained. Just tiny students that has reading's soul or real their passion. They just do what the teacher want, like asked to the library. They go to there but nothing reading seriously. Any students feel that studying is not important, boring in addition to can't see colorful images on there. Yeah, it is being complicated. Book is very important for you. As we know that on this period of time, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore , this New Astronomer can make you experience more interested to read.
